

Why Choose Siskiyou Eye Center

Our surgeons are high volume cataract surgeons who maintain a high level of skill and results. They have consistently been on the leading edge of cataract surgery over their careers and continue to provide the most up-to-date *refractive cataract procedures* in our region.

- ***Our doctors and staff genuinely appreciate and encourage medical and surgical referrals.*** Our goal is to care for the problem at hand then to facilitate a timely return to the referring physician.
- **Comanagement is a vital part of our practice.** We take our shared partnership very seriously and continually work to enhance interactions for all involved.
- Siskiyou Eye Center is dedicated to provide an unsurpassed level of medical and surgical care. We combine this with an authentic caring and respect for all patients sent for treatment.
- We pioneered the routine use of topical anesthesia and micro-coaxial clear corneal surgery in our area, allowing more comfortable surgery, quicker recovery time and less risk. We continue to be at the leading edge of surgical innovation.
- We offer standard and premium intraocular lenses including: aspheric, toric, and presbyopic correcting IOLs such as Crystalens and ReStor, in all their variations. ***Our surgeons personally evaluate, discuss and recommend*** the IOL we feel best meets the patient's needs, goals and ocular status choosing the most appropriate technology for the patient's individual situation.
- Our surgical facility, the Ashland Surgery Center, is unparalleled in patient and family comfort. It is highly efficient and provides a uniformly excellent and pleasant surgical experience.
- We employ Nurse Anesthetists and Anesthesiologists with years of eye surgery experience.
- We offer to our Optometric community the use of our diagnostic instruments which include:

Corneal Topography	Fundus Photography
OCT, HRT, FDT	Humphrey Visual Field
Goldmann Visual Field	
- Our dedicated Referral Coordinator is available to facilitate education, training, and be a consistent resource of information to the doctors, staff and their patients.
- We encourage consultation for **any eye problem**, along with cataract and glaucoma evaluations. Each patient is important to us and will be taken care of by our dedicated staff.
- We have 3 locations to better serve you and your patients. Our centers are located in Ashland, Yreka and Mt Shasta.
